Rating according ISO 8528

Prime Power (PRP)

It is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output over 24 h of operation shall not exceed 70% of the prime power. A 10% overload capacity is available for a period of 1 hour within a 12-hour period of operation.

Limited-Time Running Power (LTP)It is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to $500\,\mathrm{h}$ of operation per year (of which no more than 300 for continuative use) with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. No overload capability is available.

TECHNICAL DATA

MI2000SWD

CONTROL PANEL

Genset control with automatic management of load transfer DG/Mains

Controller with thresholds, counters, alarm, status

LCD display with pushbutton access for monitoring electrical and mechanical parameters

Advanced programmable I/O functions

Multilanguages text for measurements setting and messages

Remote communication interface

List of events

Static battery charger

SOUNDPROOFED CONTAINER

Highly corrosionproof

Galvanized steel rain proof louvers with fixed wings

Antianimal protection grid (air intake)

Exhaust silencer with rain flap

Insulation with material in fire reaction class A1

Doors with yale type key

Emergency stop

Easy connections for cables installation

AVAILABLE OPTIONS

Different soundproofing levels for containerized gensets

Solutions for arctic or hot environment

A wide selection of genset controllers and synch panels

Additional alarms (warning / shutdown)

Extended fuel tank capacity

Automatic refuelling kit

Automatic transfer switch panel (ATS)

Residential Silencer (for open set only)

Leak proof tray

Special tools

DIMENSIONS AND WEIGHTS

Open set on skid base (*) LxWxH: mm 5635x2392x3315 Dry: kg 14100 Soundproofed container Silent version (*) LxWxH: mm 12190x2435x2990 Dry: kg 22900

(*) Dimensions refer to the genset only, excluding exhaust muffler and/or remote radiator, whichever is applicable
